

HOW WE USE YOUR HEALTH RECORDS

Under the Data Protection Act 1998 the Practice is registered with the Information Commissioner to provide notification of the purposes for which patient data is used.

All patients have a right to confidentiality under the Data Protection Act.

We need to keep records about you and your health.

The people who care for you use your records to provide a good basis for all health care decisions made by you and by health care professionals.

To assist with your health care we may share information about you with the main following partner organisations

- NHS Trusts (Hospitals etc.)
- Ambulance Service
- Commissioners of healthcare services

If you would like more details an information leaflet is available upon request at reception.
